M&R Iron Weapon is a high performance female out of Weapon Hunt and an Ironsides cow that goes back to the great 34V cow family. Many of our top performance cows trace back to 34V. 159W has a 32 milk EPD to go along with a 54 weaning weight and an 89 yearling weight EPD. Here's a mainly outcross heifer that will go on to make a great cow. We really like this female and think she has lots of potential.

This February Lim-Flex females is powerfully constructed and popularly bred. She has extraordinary numbers, and she is a true breeding piece for the future generations. The progeny of IVLS Secret Weapon are among the most respected in the Limousin industry.

**CALO 210W** 5

# Open Females

**Lots 7, 8, 9** These three open females are half sisters by the Rocky Ridge herdsire, JCL Black Litter 38S. The females are from the well-established breeding herd and are most all homozygous polled and homozygous black. The females would make an extraordinary breeding unit and superior trio of replacement females.

EXLR Luvly 222R is one of the leading Lim-Flex females in the Limousin Industry and one of the best direct daughters of EXLR Luvly 084F. She produced the excellent female SCUN Tarnished Angel 211T. The daughter of KRVN Naskar 013N was the top-selling female at the 2008 American Pie Sale and now co-owned by Abele Cattle Co. and Jones and Benson Limousin.  
These embryos by LH Rodemaster make a complete and valuable genetic combination.

These embryos are sired by the outstanding homozygous polled Angus bull Gardens Primestar ANF/NHE. His offspring maintain muscle while increasing carcass quality; daughters are deep-bodied and eye-appealing, working in the show ring and as replacements. The dam is AUTO Christy 8889R, a leading donor at Hayhook Limousin. Deep-ribbed with an outstanding profile, and near perfect udder, she will catch your eye anytime you see her. With matings of this kind, we have no doubt there will be value created for the owner when these calves hit the ground.

The sire is the proven double homozygous Lim-Flex winner, EXLR Unequaled 051U, combining the genetics of Carrousel's Pure Power and one of the breed's great donors. EXLR Rebecca 1019P, lead donor for Massey Limousin and Brown Land and Cattle. The dam is CLLL Mongoose 15S, an AUTO Black Dakota Lim-Flex daughter who has had success in both the show ring and the pasture.

If you are looking for mating of quality Lim-Flex genetics, this is for you.

Little's Reagan 119R is sired by Rulon from a great First Down cow. This young cow combines great cow families. Her dam has produced some of our best cows. Her heifer calf is sired by our young trait leader, Little's Shiloh, who is a homozygous black, homozygous polled Lodestar son. Reagan usually produces show quality calves. With Rulon, First Down, and Lodestar, this could be the calf to watch!

This is a long-bodied bull with style and a lot of muscle. You will not be disappointed when you see him on sale day.

This son of the 2008 gold medal bull, DVFC Sitting Bull, is homozygous black and from a full sibling to JSTH Angel Centerfold that has been a mainstay donor for Straights Limousin in Iowa. Centerfold was once a Reserve National Female and has gone on to produce numerous show winners and sale toppers for Straights Limousin. The dam of this bull produced a \$15,000 heifer for Deer Valley Farms going to P Bar S Limousin in Oklahoma. This guy is an outcross and is ready to headline your program.

Here is a deep-sided, sound-structured herdsire prospect that is very smooth in his shoulder and neck. 506U is square-hipped, fluid in his movement and trim in his lower 1/3. Cull that old bull, and put a very complete prospect to work for your program
